FIRE CLAIMANT MADE SWIPES

Native claims again occupied the attention of the Court of Fire Claims, yesterday, and as usual, the commissioners had an interesting day. One of the most unusual cases of the day was the claim of Kahakuila, who had resemble a claim for 1377-49.

was the claim of Kanakulla, who had presented a claim for 1957.49.

"What is your occupation." asked Chairman Macfarlane.
"I am a swipemaker," was the rather unexpected reply, which led one of the commissioners to remark, "Where's the astion?"

"About how much do you make?"
Macfarlane continued.

Tes, once, but I was discharged. "De you still make swipes?"

"No, I am a fisherman now."

What were you doing with those carpenters' tools you have scheduled in your claim?"

"I used to be a carpenter, also."
"You have here three Hawalian quilts; what were they worth?"
"They were made by my wife; three of them are worth \$25, and the others

are \$20 apiece."
"What about these koa calabashes;
three for \$1707"

On leaving Kukaiau, where we again stayed over night, along with Mr. Horner and Mr. Walker of Oakala Plantation, we visited the taro patch where the fire of July 3rd started. The fire at this point seems to be entirely burned out, it having continued its course deep into the forest miles away, where it is still burn-ing.

In recommending the planting of the burned district, I would advise that after the fires are out and the soil become damp enough for planting seeds, that seeds of different kinds be scattered here and there all over the burned section, and if this plan is a success, a great saving in the way of labor will be accom plished. HOPE FOR THE END OF THE WAR

LONDON, October L-We learn on very high authority, says the Daily Chron-ide this morning, "that a sudden com-plete collapse of foor resistance and the plete collapse of floer resistance and the speedy termination of the war in South Africa are anticipated. The attacks on Forts Itaka and Moedwill and the other recent engagements are regarded as the last desperate efforts of men who are wearied by the struggle and tired of being hunted.

"Therefore, beyond sending drafts to compensate for losses by casualties and disease, there is no intention to dispatch further re-enforcements or to employ indian troops, as rumored, for guarding the lines of communication."

Commenting editorially upon this in-

Commenting editorially upon this in-formation, the Daily Chronicle, while admitting that there is much to be said for "the sanguine view taken by the War Office," reminds the government of previous miscalculations and warns min-isters that it is their duty no longer to trade on chances, but to make success, humanely speaking, certain.

MANY BRITISH OFFICERS FELL. LONDON, October 4.- The latest South African casualty list shows that the fighting in the attack on Colonel Keke-wich's camp at Moedwill, September 29th. put twenty-six British officers out of ac-tion. Four men were killed outright or died of wounds, and twenty-two were injured. Colonel Kekewich was wounded severely, but is doing well.

If you stop eating you will surely get thinner and thinner, until at last you starve to death. Grass won tanswer, although it is good for the horse. You must have a food suitable to your needs.

Ayer's Hair Vigor

is a hair food. It won't take the place of grass or bread. It is good for the hair, and that is all. It feeds the hair with hair food. The

hair can't keep from

growing. It stops falling out because it is hearty and strong. And it always restores the early

rich, dark color to gray hair. We say that "gray hair is starved hair"; and the only way to treat it is to supply the best kind of hair food. This is where Ayer's Hair Vigor differs so greatly from other hair preparations; it feeds the mair. Just keep that in mind all the time you are using it.
